

FIGURE 1. The paths $\lambda_i([\pi])$ and triangulation $T := \eta_Q([\pi])$ for $\pi = [453126] \in S_6$ in one-line notation

Note that
$$\eta_Q^{-1}(T) = \left\{ \begin{array}{l} (456312) \\ 453612 \\ 453162 \\ 453126 \end{array} \right\}.$$

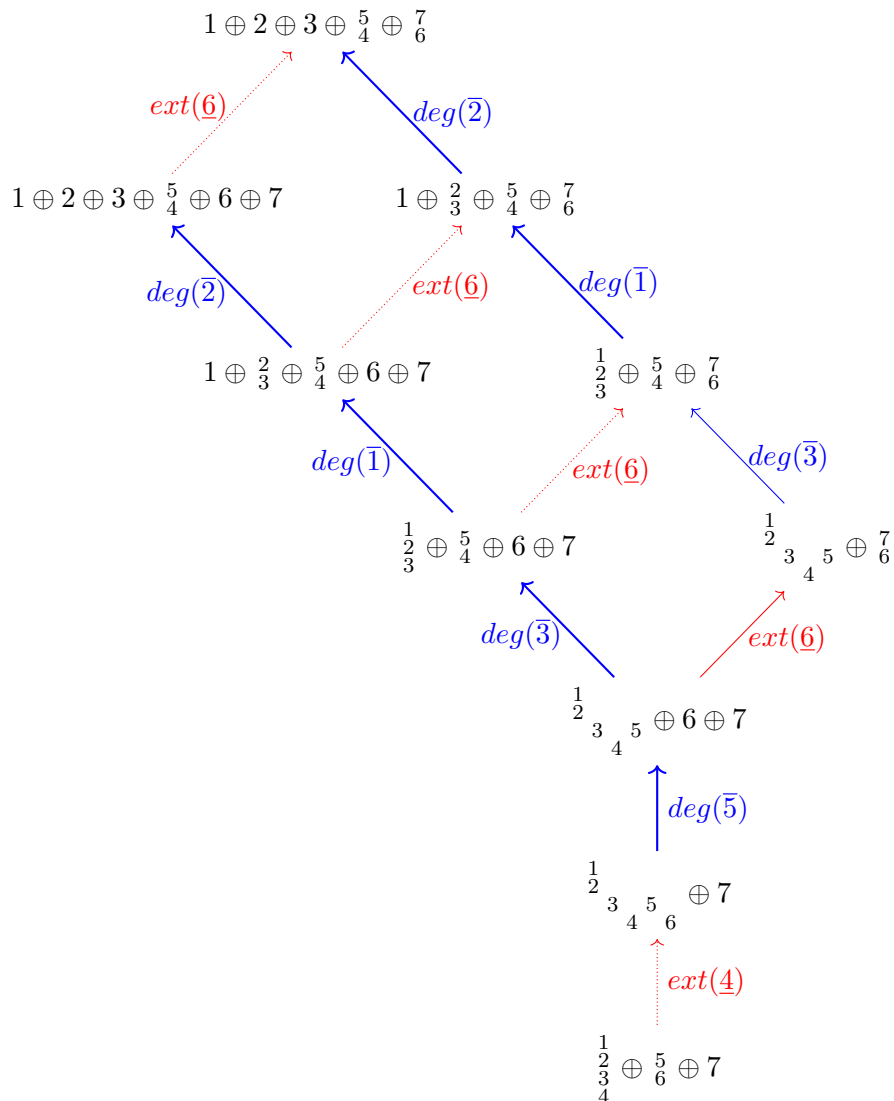

FIGURE 2. The four maximal paths correspond to the four permutations given above. The left-most maximal path correspond to the permutation $\pi = [453126]$.
